RR✓KĀBEL

COMPANY PROFILE

RR KABEL LTD– is the flagship company of **RAM RATNA GROUP** for manufacturing Specialty Wires & Cables viz. House wires, Industrial Cables, Fire Resistant Grades and Data Communication LAN cables using latest state of art machines AND TECHNOLOGY procured from Germany, France, USA and Switzerland. The plant capacity is to process copper up to 24K TPA.

The manufacturing units are situated at Silvassa, **Union Territory of Dadra & Nagar Haveli**, 180 kms North of Bombay, and at **Waghodia, Vadodara in Gujarat** serving Electrical Industries, be it Corporate, Institute, Original Equipment Manufacturer & Indian as well as a number of multinational industry. With the help of various international product certifications the company caters to more than 73 countries.

The company has 10 regional offices covering the entire length and breadth of the country. For the international operations separate offices have been set up in various continents.

Besides having an excellent plant setup with all latest and most modern sophisticated machineries, we have emphasized on recruiting highly qualified and trained Engineers to run these machines. We further believe in continuous learning process, so in plant training, on job training is the part and purpose of the work culture at RAM RATNA.

We have been pioneers in bringing to India two major breakthroughs in cable technology, viz. both in conductor as well as insulation.

1. By continuous support and training by our machine suppliers from Europe we had developed to produce a specific flexible conductor with UNILAY bunching, which is a marvel in conductor technology. Not only it helps in increasing the conductivity of cable, but also its soothing look, its reduced size is aesthetically gained praises world over. We at RAM RATNA are proud to be ***the only producers of cables with UNILAY conductor in INDIA.***
2. In Insulation Technology too, we have made remarkable progress, by introducing cable of next generation, which is virtually smoke free and highly flame retardant, besides it is ZERO HALOGEN cable, with minimal toxicity levels and non corrosive nature. This HFFR(Halogen Free Flame Retardant) insulation is the answer to world calamities due to fire situations due to short circuiting. Already many western countries are contemplating to phase out PVC cables from general usage, so the future holds bright for Halogen Free Cabling and we at ***RAMRATNA are PIONEERS to bring HALOGEN FREE cables in INDIA.*** We

are also the first company in INDIA to offer its entire range of products in line with **RoHS directive for Lead free cables.**

The company is the first organization in the LV cable industry in India to be certified to **ISO 14001:2007**(Environment Management Systems), **OHSAS 18001:2004**(Occupational Health and Safety Assessment Systems) and the recently released standard **ISO 50001:2011** for Energy Management Systems in addition to **ISO 9001:2008**(Quality Management Systems). This shows the level of transparency at every level in the operations of the company, by way of recommendation for re certification successively.

All these developmental activities are made possible by selection of best possible machineries, best possible raw material, sincere team effort from RAM RATNA's Technocrats and committed management.

The entire range of products manufactured under the brand name of RR-KABEL not only conforms to various Indian standard specification and is **ISI approved** but also approved for Quality by **DIN VDE**(German Certification Institute), **BASEC**(UK certification), **UL**(USA certification), **CSA**(Canadian certification), **PSB**(Singapore certification), **SABS**(South African certification), **DEMKO**(Denmark) and is compatible to various International specifications such as IEC and ASTM

RR-KABEL has been the Pioneers in India to have introduced the below product and various certifications in the Low Voltage category Cable Manufacturing

- First to manufacture UNILAY
- First to manufacture HFFR
- First to manufacture FS
- First to manufacture HR
- First to have RoHS compliant cables
- First to manufacture cable with CE marking
- First Indian Cable Company to have international certifications
- First to have ISO 9001:2008, ISO 14001:2004, OHSAS 18001:2007 and ISO 50001:2011 certifications
- First cable company to be signatory to UN's Global Compact Program
- First Cable Company to be a Founding Member of the Indian Green Building Council.
